

The tables below list the average cost of tuition and fees (table 1) and tuition and fees plus room and board (table 2) at three types of colleges and universities from 1980-2017. Compute the percentage change in those costs from decade-to-decade (1980-2010) and year-to-year (2010-2017). Round answers to the nearest 1/10 percent.
